ABOUT ME

I am an undergrad student currently in the 8th semester at Silver Oak College of Engineering and Technology pursuing Computer Engineering. I have been developing Web applications with industry forefront tools and frameworks.

EXPERIENCE

Web developer Trainee - Internship (3 Months)

Electromech Corporation - Ahmedabad (August-October 2020)

I was working on a project called CourtNext which was an web application with its infrastructure built on AWS and I was responsible for adding some features in it as well as test the application to find some bugs.

PERSONAL PROJECTS

Place Sharing App

Built using MERN Stack

A simple MERN Stack app which lets users sign-up and sign-in using JWT and perform CRUD operation on places added, the communication from frontend and backend is done by REST Api . The users can share places with this app.

React E-commerce app

Built using ReactJs, Redux, FireBase

ReactJs project with dummy product data and using Redux for state management and test Stripe payments functionality with firebase for authentication.

React Colors

Built using ReactJs and Material UI component library

It is a Flat UI Color clone and provides user to choose colors from existing color palette or create a new one which is stored in the local storage of the browser

React Hooks Website

Built using ReactJs and React hooks

A React website which uses react router for route handling and a responsive react website built with react hooks

E-commerce App

Built using NodeJs, ExpressJs, MongoDb and Stripe API

An e-commerce web application which is capable of handling payments using Stripe API and uses EJS template for the frontend and express and node for the backend configuration

Social Media App

Built using NodeJs, ExpressJs, MongoDb, Bootstrap

An social media app which is capable of features like login authentication, creating a post editing it and deleting a post, I am working on this and will add more features in future

React Weather App

Built using ReactJs & Bootstrap

An app which lets the user know about the past 7 days weather of a particular city. The user is expected to fill the latitude and longitude of the city as input.

Movie Fight App

Built using Omdb Api, Bulma Css and VanillaJs

An web app which compares two movies based on their IMDB rating and box-office collection. The data is fetched using Omdb Api

EDUCATION

Silver Oak College Of Engineering and Technology, Ahmedabad

2017 - present | Bachelor's Degree in Computer Engineering with 8.8 CGPA

Nutan English School, Ahmedabad

2015 - 2017 | High School Graduation (11th-12th Standard)

I.D.Patel Edu Campus, Ahmedabad

2012 - 2014 | Secondary School Graduation (8th-10th Standard)

St. Xaviers High School, Mumbai

2006 - 2012 | Primary School Education (1st-8th Standard)

SKILLS

- HTML
- Css
- JavaScript
- JQuery
- BootStrap
- NodeJs
- ExpressJs
- MongoDB
- ReactJs
- NextJs
- Figma
- Adobe Illustrator
- Sass
- AWS (Amazon Web Services)

LANGUAGES I SPEAK

- English
- Hindi
- Gujarati
- Marathi

ONLINE CERTIFICATIONS

- NodeJS - The Complete Guide (MVC, REST APIs, GraphQL, Deno) - Udemy
- React, NodeJS, Express & MongoDB - The MERN Fullstack Guide - Udemy
- Complete React Developer in 2021 (w/ Redux, Hooks, GraphQL) - Udemy
- The Modern Javascript Bootcamp by Colt Steele & Stephen Grider - Udemy
